It's time to get Cirius...

Cirius is the ideal security and productivity complement for Office 365 because it provides secure messaging, e-signatures, and large file sharing directly within Office 365. Advanced security features enhance regulatory compliance for legislation such as HIPAA, GLBA, and S-OX. Cirius requires no hardware or IT expertise to install and it works with Microsoft DLP.

Meet the Delivery Slip control panel

Simplified Email Encryption

You get constant access to secured communications right in Office 365 without needing additional encryption software or hardware.

Advanced Security Features

You get a full range of advanced security features, including message recall, content filtering, Forward freeze, Reply freeze, and FYEO.

'Click to acknowledge' E-Signatures

You can request and provide legally valid e-signatures on documents and images directly from Office 365 without any additional workflow or apps required.

The screenshot shows the Cirius Delivery Slip control panel for a message titled "Revised agreements and video interview". The interface is organized into several sections:

- Header:** "Corp National Secure Email" with contact information for Derek Smith.
- Secure Message:** A toggle switch is turned ON.
- OVERVIEW:** Shows the subject, 5 participants, and the sender (Susan W. Davis). A recipient tracking table is displayed:

TO:	Track	View	Download	Print	Share	More
Derek Smith	ON	ON	ON	ON	ON	ON
Sandra Brown	OFF	OFF	OFF	OFF	OFF	OFF
Bob Gordon	ON	ON	OFF	OFF	OFF	ON
Alice Lapointe	ON	ON	ON	ON	ON	ON
- SECURITY POLICIES:** Includes "Forward freeze" (ON) and "For your eyes only (FYEO)" (ON).
- SECURE FILES:** Lists "Video_interview.mp4" (50.03 MB) and "Employment_Information.pdf" (180.37 KB).
- E-SIGNATURE DOCUMENTS:** Shows a document "Legal_Agreement.pdf" with a note "You are a required signatory".
- E-DISCOVERY & TRACKING:** Provides metadata such as Method (Secure Message), Status (Active), Sent time (Nov 02 2015, 1:45PM), and Message ID.
- Real-time tracking options:** Shows "Real-time tracking" and "Tracking shared" both turned ON.

Real-time Track & Trace

Real-time Delivery Slip updates and mobile notifications let you monitor the status of any message, e-signature document, or file that is sent.

Large File Sharing

Easily and securely upload and share multiple files up to 5 GB directly from Office 365 and bypass the need for additional file-sharing services.

E-Discovery & Compliance

Encrypted messages can be automatically decrypted into your existing archiving solution such as Global Relay or Sonian.
