DeliverySlip

Outlook

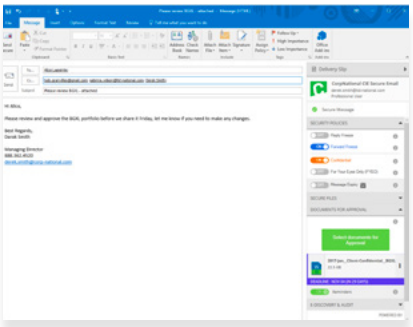
DeliverySlip for Outlook®

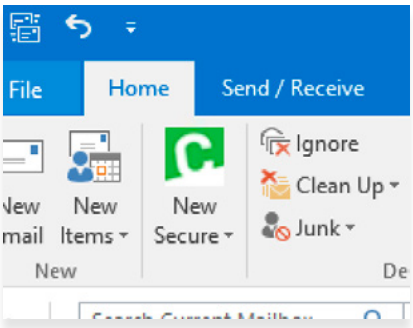
Use DeliverySlip where you work

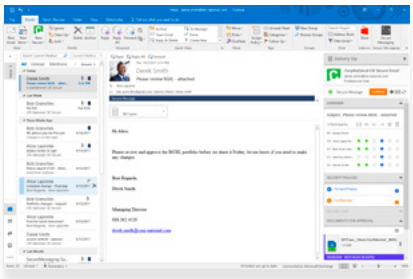
Transform Outlook into a secure, turbocharged email communications and collaboration tool.

DeliverySlip works right inside the email environment you are most comfortable using, while adding bank-grade encryption security and additional email functionality. Email controls, such as ForwardFreeze and ReplyFreeze, and real-time tracking. See who has opened, read, forwarded, replied or deleted your email message. Securely send file attachments up to 5 GB without worrying about overloading recipients' inboxes and request E-Signatures and E-Approvals right from Outlook.

DeliverySlip will leverage your Single Sign-On (SSO) capabilities, there's no new application to learn and no new password to remember. DeliverySlip is incorporated into where you do business—Mac, PC, desktop, mobile, Android, iOS—adding convenience, security, and flexibility to all your communication devices.

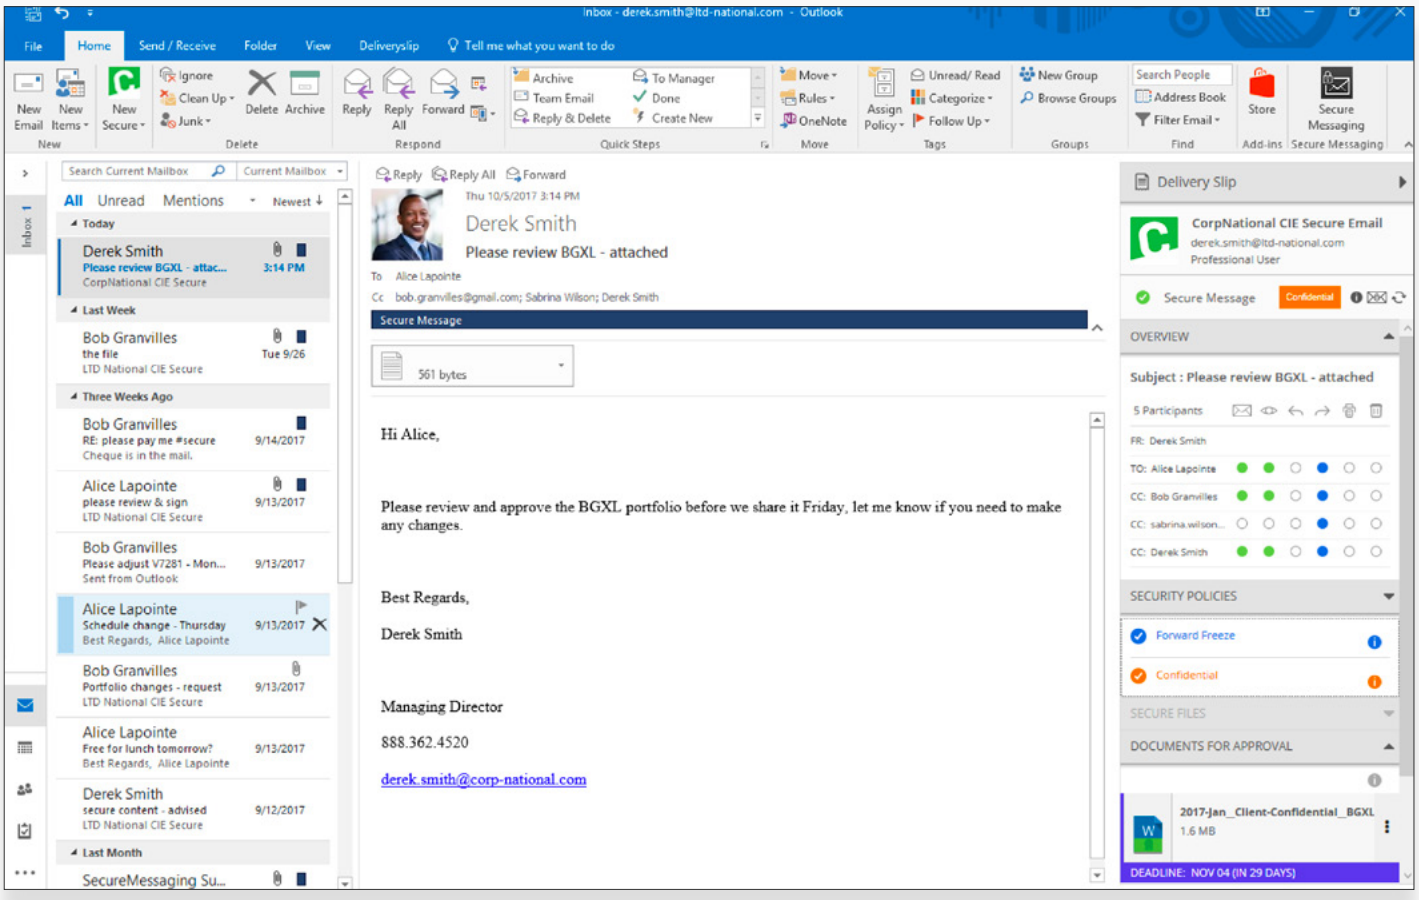


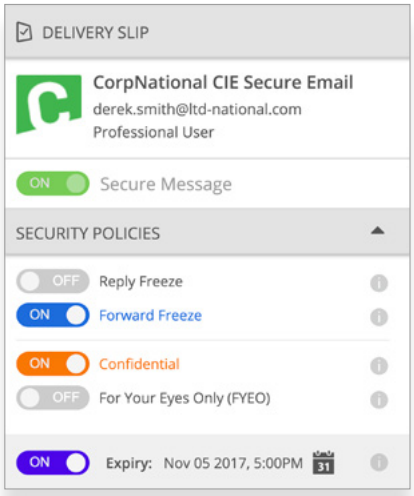




How it works

DeliverySlip for Outlook extends encryption, real-time tracking, and enhanced security options to your Outlook inbox in a seamless user experience via a plug-in that takes two minutes to install. Simply compose your email in Outlook as usual, choose from a range of delivery options and message controls in Delivery Slip, and hit “Send Secure.”





EASY TO INSTALL & SET UP

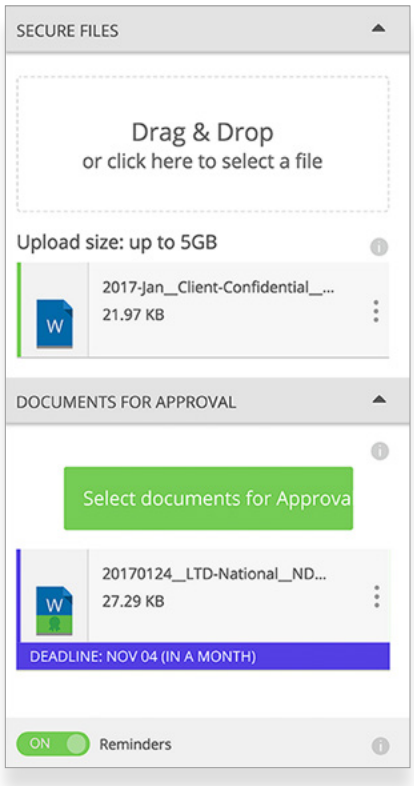
Get started right away with a few clicks. Can be installed by Admin for all users.

SEND SECURELY FROM OUTLOOK

Quickly and simply turn your favorite email client into a secure environment.

FOR YOUR EYES ONLY (FYEO)

Optional FYEO password protection for maximum security and privacy

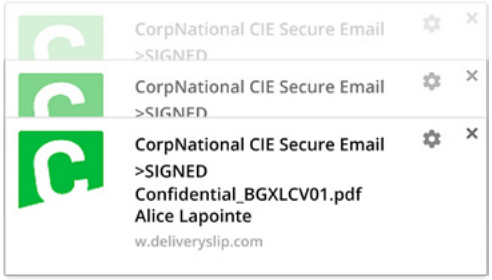


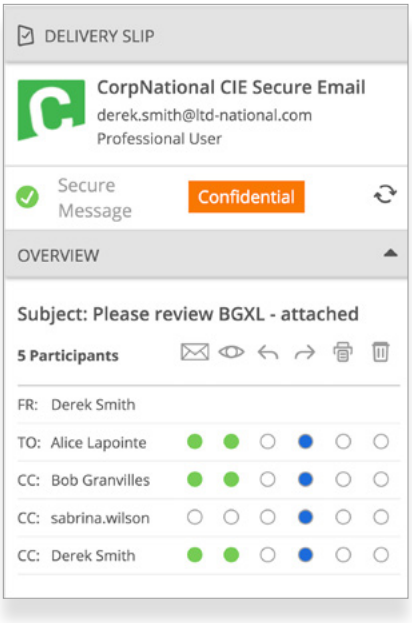
ADVANCED MESSAGE CONTROLS

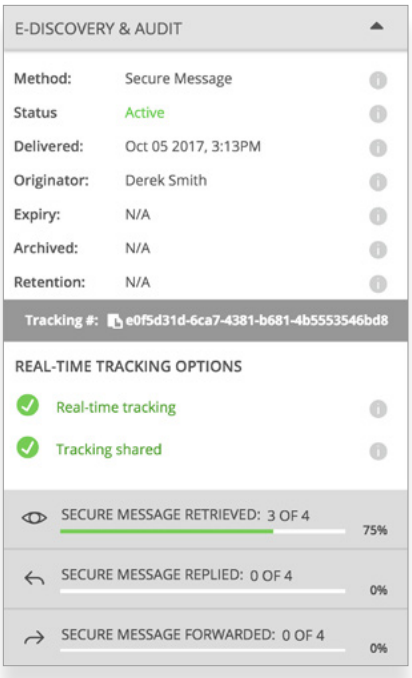
Unique controls to lock content and prevent message replies and forwards.

REAL-TIME TRACKING WITH LIVE NOTIFICATIONS

Track and prove when an email is received, read, replied, or forwarded.







TOTAL MESSAGE RECALL

Instant retraction of messages and attachments—even after the message has been read.

SEND & RECEIVE LARGE FILES

Securely send, receive, track and control file attachments up to 5 GB, directly within Outlook.

SEND FOR SIGNATURE/ REQUEST APPROVAL

Easily and securely sign and exchange documents with DeliverySlip's built-in e-signature.

DATA LOSS PREVENTION (DLP)

Policy-based DLP is deployable and is compatible with the native Microsoft 365 & Google Suite.

DeliverySlip

Be productive. Be collaborative. Be secure.
